

Ryan Training™ — Ensuring You Stay Current on the Latest Tax Knowledge and Administrative Best Practices.

Canadian Federal and Provincial sales taxes are complex — and new changes and interpretations occur every month. To help keep you current, Ryan offers a range of professional education options designed to ensure you administer sales taxes correctly and efficiently, so you can avoid the consequences of paying too much, or too little.

As a client, you gain complimentary access to Ryan sales tax courses. All are taught by experienced tax experts who are among the most knowledgeable in the country.

Our instructional programs have garnered respect throughout the North American sales tax community and are recognized as the best in the industry. Participants value not only the comprehensive and relevant content, but also the lively, involved presentations.

To ensure that clients can take advantage of our advanced sales tax training, Ryan courses are regularly scheduled throughout the year and are available conveniently in live classroom and online formats.

Ryan Training Centre

Courses in the Toronto area are held at the Ryan Training Centre, a dedicated, comfortable and fully equipped facility. We also regularly schedule seminars across the country and onsite for many of our larger national clients.

Meet your course leaders

Our internal training, proprietary knowledge bank, and handpicked recruiting continually produce some of the top sales tax instructors in the country — experienced professionals who not only understand the issues but what those issues really mean to you.

No wonder Ryan experts are frequently called upon to present at meetings, conferences, and symposiums throughout North America, for organizations like the CICA Annual Commodity Tax Symposium, Chicago Tax Club, Tax Executives Institute, and Institute for Professionals in Taxation.

Major professional groups and leading companies trust Ryan as the sales tax training expert. Doesn't it make sense to get that expertise working for you.

More than just handouts

All participants receive comprehensive course materials. These include comprehensive manuals containing detailed speaker's notes, which not only reinforce the advanced training acquired but also serve as valuable reference guides.

Best-in-class training.

Ryan courses are unrivalled in the Canadian tax industry. These professional development programs give participants a significant advantage in managing the tax function within their organizations.
